log 21.6.76 need specific CSWs on the various staff changes which are proposed. Do not quite understand the posting of Wendell local or in CG's office! Pls clarity.

23.6.76 PR US - see that there is an emphasis on HONEST postings & that step 1-5 of Org Series 23 is done... all that PR US cuts out the hidden musical chairs & posts terminals to hold positions in space... if they can't hold the positions they get corrected in Q. P.S. The mission are already into the handling of the event or boarding & yr. services back up on this will be much appreciated.

13.10 ~~5645~~ I gather that the initial report is
supposed to be a red herring?
& this true?

25.10.76 Weekly Report - do you set DCS
Date: 19.10.76 repts from outstages. If so they
~~5693~~ shld be attached to yr W.R. Also there
shld be separate repts for G04 on major
sites. Eg. What really happened in
Parrish prison? What ~~was~~ the full scene
on UN New Orleans with the specifics?
There are many more, including ASSs, which
are not understandable on a long
distance comm line. 1) Pk attach all other
W/Rs to yr W/R 2) Separate repts on major sites.
