#### INFORMATION:

This program is addressing target 3 of the Strategic Planning Program, which is "Take over the control of the NIMH (which is the fort of support for the Nat'l Mental Health Assoc's)."

Information is needed in order to put together a program for this target, a program which will result in this target being complied with, the taking over control of the NIMH. This information will enable us to understand how best to go about doing this. This is a top priority program and needs fast action.

Presently we have information on the funding, programs, organizational structure, and various activities of the NIMH. What is needed now is further, more specific information. Also, along with this resources need to be established which can assist in carrying this program's work out and which can work on the actions which the later program will require.

The NIMH is one of the national institutes which come under the Alcohol, Durg Abuse, and Mental Health Administration (ADAMHA) The ADAMHA is an umbrella organization over the NIMH and two other national institutes - National Institute of Alcohol Abuse and the National Association of Durg Abuse. Its duties are management, supervision, and administration of these three institutes. The ADAMHA and the NIMH are part of the Public Health Services organization, which also has under it the Food and Drug Administration and the National Institute of Health. The Public Health Service is part of the Department of Health, Education, and Welfare of the U.S. government. (see attachment 1 for a diagram). (and further basic information)

Information already known to be true is that the taking over of control is easier that it would first appear. It is done politically and by using what is termed Washington broken field running, which is political manuevering basically.

The following program is designed:

MAJOR TARGET:

To obtain the information necessary to take over the control of NIMH while at the same time establishing the lines and resources to be used in taking over NIMH.

# B1 OPERATING TARGETS:

1.	Obtain the Articles of Incorporation, bylaws, whatever and public minutes of meetings of the NIMH. This would be since 1973, its last organizational change.
	- AGI DC
2.	From infommation in #1 above, liase with Legal and analyze the data and determine what the control lines and control mechanisms of the NIMH are. For example, if a membership vote which sets up directors and officers establish this group of people as those who, in fact, control leadership of the NIMH. If so, when are elections held, etc.
	Seus Sec BlUS
3.	Follow up #2 and find out how in actual practice NIMH control is held. If a person is elected into a position, is it in fact a position of control. If so, find out how many members would be needed to swing elections, etc.  If a position is appointed, find out who does it, on what basis, etc.  Determine who(s) holds control of the NIMH in actual practice.  And determine how that control is obtained.
