RE: Mayor Cazares

*This reflects the success
of the one partially success
DP.*

Dear Jimmy and Mo,

Here's some interesting data that has just come to my attention and which I am sure will be of use in our handling of the Mayor.

On 13 March Cazares went to a DC National Mayor's Conference.

On either 13 March or 14 March, the Mayor picked up a young woman. On 14 March in the evening and after a few drinks, he had her take him for a ride on a dark and lonely road near DC.

On the drive, the Mayor was quite amorous with the woman and had serious intentions of going to bed with her. The woman was driving while holding him off.

Suddenly the car they were in struck a man at approximately 25 miles per hour. Neither the young woman or the Mayor stopped to help the man or even find out if he was dead or just seriously injured.

The Mayor was quite upset and didn't speak for several miles at which time it appears that he asked the woman if maybe they shouldn't go back to see if they could help. The woman did not stop and the Mayor didn't press the issue. Only one person observed the incident - a man who was following the Mayor. Neither the Mayor or the woman knew they were followed, though the Mayor expected we would be following him in DC.

The man who was hit is perfectly all right. And no one but us knows who he is or that he is all right. The man has agreed to keep the matter totally

quiet.

The young woman took the Mayor back to his hotel and dropped him off.

Unexpectedly the Mayor checked out of his DC hotel room this morning (15 March) presumably to return to CW.

There is of course much use to which this data can be put on BI lines and I am in fact reviewing the data and planning our actions to make the most use of this.

Oh, additionally we tried to trace the license plates and the girl without success. And the Mayor himself does not know for sure who she is. We will continue to look for her until we find her and then see to what use she can be put in our actions. I know for a fact we can find her if we really need her.

I should think that the Mayor's political days are at an end.

I'll keep you posted.

Love,

Dick

3. Do a survey to find out what is wanted and not wanted for a congressman/politician in the local area _____ AGPR 5 June
4. Place Gas Member Ron Wiedoff as I/C of the campaign to force Cazares out of office as mayor in line with the current attacks being made against him by members of the City Council. DONE _____ AGPR
5. Target and get done a petition campaign to be done by Wiedoff to call petitions calling for the Mayor to step down since he is running for office. Wiedoff should present these petitions to the City Council at the Thursday 15 April meeting. He should be drilled and ready with press statements so that a strong attack line is carried at the event. DONE _____ AGPR
6. Review the success of the petition action and target further petition actions to get the mayor to step down if these seem warranted. If done, this should include events for the use of these petitions to carry our attack line. _____ AGPR 5 June
7. Get the targets in #6 done. _____ AGPR 8 June
8. Have political enemies of Cazares contact (not by a Scientologist) in regard to the need to get him to step down as Mayor while running for congress so that he will not misuse the Mayor's office as a personal political platform. Get suggestions and elicit help from these people in what actions can be taken to get Cazares to step down as Mayor. _____ AGPR 20 June
9. Plan and do up targets based on any ideas or data gotten in #8 and get these targets carried out. _____ AGPR 25 June
10. Liase with legal to find out what the law is in regard to Cazares remaining the Mayor while running for office. If there is any ambiguity in the law use this in your actions as another reason Cazares should step down. _____ AGPR 25 June
11. Survey to find out what groups, businesses and organizations would be opposed to the issues being supported by Cazares which were found in Tet 1. Target and carry out a subproject to have individuals contact these groups and solicit support for opponents of Cazares or just for the idea of stopping him. Base all this on the fact that he will be very bad for the area and use the issues which he supports and which the group contacted opposes as an example of why. Solicit active support and political donations where legal and so forth. (Don't get our people collecting political donations, etc. but motivating others to pitch in and support a selected opponent of Cazares). Get the selected opposition candidates to Cazares well supported. _____ AGPR 15 August
12. Determine if Norm Bowles will file an ethics commission complaint against Cazares as he has been planning to do. If Bowles cannot be used to do this, locate a suitable comparable replacement and have this person file the complaint. _____ AGPR 20 June

13. Get any other persons possible to file complaints with ethics committee against Cazares. These complaints must be based on actual offenses and must not appear to all be solicited by us. The persons filing them must be willing to stand behind them on their own. The idea is to get more than one complaint filed in order to motivate the commission into doing a real investigation of Cazares.

AGPR 1 Ju

14. Target and carry out a subproject to get a letter writing campaign to the Sun and Times done. The letters should call in various ways for Cazares to step down as Mayor while running for federal office, there should be various reasons stated for why he should do so and the campaign should in no way appear controlled. Some letters should be hostile and others more favorable but still all wanting him to step down. Get at least 100 such letters generated, some can even come from Tampa.

25 July

15. Target and carry out a letter writing campaign to members of the city commission calling for the mayor to resign from office as he is run for federal office, will make the commission a partisan body, not have enough time to be Mayor. Ask the commissioners in many of the letters to take action. Get the most letters sent to the most active commission but approximately 20 sent to each. Be sure they are different and appear spontaneous so that the commissioners will begin to think that public opinion is heavily in favor of the mayor stepping down.

AGPR

16. Target and carry out a subproject for 5 upstat persons to work in a campaign of the strongest challenger for the Democratic nomination against Cazares. These could even be residents of the FH as long as they are acting as individuals. See that they have needed tech to interject into the campaign to make it effective.

AGPR

(Fully complete by primaries)

17. CONDITIONAL: If Cazares should get the Democratic nomination for congressman arrange for a group of approximately 10 upstat persons who are well briefed to go to work for the campaign of Bill Young. Run these persons so that they greatly increase the effectiveness of the campaign and ensure a victory for Young.

AGPR

(Complete by election)

18. Begin at once regardless of whether Cazares has the nomination, to get one good person into a position of influence in the Young campaign organization. If necessary this person can be used to supply tech suggestions, strategy or even data to Young to ensure a defeat of Cazares.

AGPR 30 Ju

19. Target and carryout a subproject which researches and keeps track of Cazares political events and speeches and without appearing like harassment, ensure that there is always opposition present at his even to ask embarrassing questions or at least make it known that he is not by everyone. Use these opposition actions to the best advantage but they must not connect to us or appear to be other than legitimate citizen opposition. _____ AGPR Going fullblast by 30 _____ in maintain

20. CONDITIONAL: Find out if there is any substance to the story that were told that Cazares is disliked for getting the homes of blacks in the slums condemned while he was in office (perhaps he is disliked just because it was done under his administration). _____ AGPR 30 1

21. CONDITIONAL: If this story has substance and there is legitimate bad feeling over this, target and execute a subproject which forms a front group with no connection to us to pull together all the people who are upset over this issue and get them attacking Cazares, staging press events which get coverage running against Cazares image of being for poor workers. _____ AGPR 30

29. Maintain your pro-Son letter writing campaign to the Sun to counterbalance the entheta campaign which the Mayor is keeping going.

AGPR Maintain

30. Liase with AGL to determine if we should directly file a complaint with the ethics commission and if this is advisable see that it is done in liason with AGL.

AGPR 5 June

31. See that the voter registration project is executed and all possible of our voters are registered and that they all vote against Cazares in the primary and final election. (It would be good to assess if it will be possible to have the remainder of our voters register as democrats so they can vote against Cazares in the primary where individual votes means more--the only point against this is that the rolls are public and would reflect that we had stacked the party registration of our people, however, this may not be important.)

AGPR

Registration by deadline

32. Prepare and execute a press conference announcing the filing of our amendment in the suit of ours against the mayor, which will expand the complaint against him and charge conspiracy.

33. Plan and have done a photo shoot parody of the local scene aimed at Cazares. Base this on local survey buttons. Make this broad enough that it can be put out as handouts and posters and will be picked up as a general anti Cazares symbol and kept and passed around by any opposition he has--get this done in cooperation with the LMO.

AGPR 15 Jul

34. Work out an event to hand on the distribution of these posters and handouts and get this done. Our handle has to be something like a demand for our civil rights and not a partisan political shot at Cazares.
